### PROFESSIONAL SUMMARY:

- 4+ years of experience in building cross-platform mobile and web applications using **Flutter** for iOS, Android, and Web.
- Expertise in **state management (GetX, Provider, Bloc)**, **API integration (Dio, REST, FastAPI)**, and scalable architectures (MVC, Clean Architecture).
- Delivered impactful projects in **AI-driven apps** (script generation, multimedia automation) and **telehealth platforms** (real-time video consultations, admin portals).
- Proven track record of publishing **350+ apps** on Play Store and App Store, with optimised CI/CD pipelines and strong compliance.
- **Open-source contributor**: Published **ringtone\_set\_plus** Flutter plugin ([GitHub](https://github.com)), enabling developers to set ringtones, alarms, and notifications with ease.
- Skilled in **CI/CD, Firebase, Docker, and Agile methodologies**, with focus on performance optimisation, clean code, and high-quality user experience.

### PROFESSIONAL EXPERIENCE:

#### Dimensionleap Pvt Ltd, Hyderabad

**Sr. Flutter Developer** | May 2025 – Present

- Leading development of **SpotLight**, an AI-driven cross-platform app for the film industry, enabling **script generation, AI-assisted scene creation, and multimedia exports (PDF/PPT/video)**.
- Built **video editing and content automation features**, boosting productivity for creators by **30%**.
- Delivered **Aesthatiq telehealth platform** with **real-time video consultations (Agora SDK)**, doctor onboarding, appointment scheduling, and admin portal.
- Ensured **secure data handling** and optimised performance across **iOS, Android, Web, Windows, and macOS** platforms.
- Applied **Clean Architecture (ACRI, Provider)** and CI/CD workflows to ensure maintainable, scalable, and high-performing apps.

#### AppifyRetail Pvt Ltd, Hyderabad

**Flutter Developer** | Sep 2023 – May 2025

- Developed and maintained **template-based user apps**, enabling **350+** vendors to launch their **branded apps** on Play Store and App Store.
- Streamlined **deployment workflows with CI/CD**, reducing release cycle time by **40%**.
- Implemented **e-commerce features** including product management, secure payments, and customer engagement tools, enhancing vendor adoption.
- Collaborated with backend teams to integrate **FastAPI & MongoDB**, ensuring secure, scalable data handling.
- Improved app stability and performance through **thorough testing, debugging, and performance tuning**, achieving **95% crash-free rate**.
- Applied **GetX & Clean Architecture** for maintainable codebases, ensuring long-term scalability and faster feature delivery.

#### VGrow, India

**Flutter Developer** | Mar 2022 – Aug 2023

- Built and deployed a **school management app** for iOS and Android, supporting **gate pass systems, homework/classwork updates, and attendance tracking**.
- Enhanced **real-time communication** between teachers, students, and parents via **push notifications** and API-driven updates.
- Improved app performance and navigation speed, resulting in a **25% faster load time** and smoother user experience.

- Published apps on **Play Store and App Store**, managing updates, bug fixes, and enhancements post-launch.
- Applied **Provider-based state management** and **RESTful API integration**, ensuring secure and scalable data flow.

## **Mcmewa Pharma, Secunderabad**

**Jr. Flutter Developer** | Apr 2021 – Feb 2022

- Contributed to a **pharma supply and delivery app** for iOS and Android, enabling **real-time order tracking, delivery scheduling, and secure payments**.
- Assisted in integrating **RESTful APIs** and **push notifications**, improving customer and supplier communication.
- Supported UI/UX implementation and troubleshooting, helping achieve **90% on-time delivery tracking accuracy**.
- Collaborated with QA to perform **testing and debugging**, enhancing app stability and user satisfaction.

## **Technical Skills**

- **Languages & Frameworks:** Flutter, Dart
- **State Management:** GetX, Provider, Bloc
- **API Integration:** Dio, RESTful APIs, FastAPI
- **Tools & Platforms:** Git, Docker, CI/CD, Firebase, Xcode, Android Studio
- **Deployment:** Play Store, App Store
- **Other:** Figma, Unit & Integration Testing

## **Open Source & Contributions**

- **ringtone\_set\_plus (Flutter plugin)** – published on pub.dev to help Android apps set default ringtone, notification, or alarm from assets, network, or file, compatible with the latest Dart/Flutter versions. (11 likes · 160 points · MIT-licensed). GitHub: [github.com/jagadeesh8682/ringtone\\_set\\_plus](https://github.com/jagadeesh8682/ringtone_set_plus)

## **Education**

### **Bachelor's Degree in Computer Science**

Jaya Arts & Science College, Chennai, India
